RANCILIO

coffeeing the World

CLASSE 8 DE

Electronic design

Classe 8 DE has an electronic control with an ample variety of exclusive functions. The electronic display can be used to navigate through all functions with extreme speed, ensuring great efficiency.

1 ELECTRONICS The sophisticated electronics of this model are used with a simple and intuitive interface. The functions that can be directly managed and programmed from the display include: •1• Automatic easy-clean washing program •2• ABM07 electronic boiler temperature control •3• Automatic on/off calendar •4• Infusion program •5• SEQ (Standard Espresso Quality) system warns in case of a variation in dispensing, allowing constant dispensing times to be obtained.

2 iSteam (Rancilio Patent) This new totally automatic steam wand allows milk to be heated and frothed using a mix of steam and air, until a soft and remarkably compact cream is obtained. The innovative water system makes it the fastest and most powerful steam wand on the market (500 cc from 10°C to 65°C in 30 seconds). Two program selection buttons: "Cappuccino", to heat and froth the milk, or "Latte", to heat the milk only. The smart electronic control system injects air according to the quantity of milk present in the pitcher, giving constant quality time after time. When the programmed temperature is reached, the iSteam stops automatically. The user can set the final temperature of the drink and the quantity of air to be emulsified for both programs. The special stainless steel covering is heat-insulated to make it cool to the touch and extremely easy to clean.

8DE . TECHNICAL FEATURES

Technical Features

independent heat exchangers

electric heating

incorporated volumetric pump

boiler pressure gauge

automatic water level control

multifunction onboard computer with alphanumerical display

electrical boiler temperature/pressure control

low-voltage dispensing controls (24 V)

housing in stainless steel

electric cup-warmer

Endowments, accessories

ENDOWMENTS: 1 filter holder for 2 cups per group, 1 filter holder for 1 cup, 2 steam wands, 1 hot water dispenser programmable for dosage time, coffee tamper, measuring scoop and washing disks, foot extensions.

ACCESSORIES: DP automatic or manual water softener, MD dosing grinder, interchangeable sides.

Colors

stainless steel

Technical Data

1 GROUP

dimensions (wxdxh) 27.1(22.4) x 19.6 x 19.2 inch	weight 116.8 Lb	boiler 1.3 usgal	Hz 50/60
boiler power 3200 W (120 V) - 3000 W	voltage 120 / 220-240 / 380-415 3N		

2 GROUPS

dimensions (wxdxh) 33.4(28.7) x 19.6 x 19.2 inch	weight 167.5 Lb	boiler 2.9 usgal	Hz 50/60
boiler power 3200 W (120V) - 6000 W	voltage 120 / 220-240 / 380-415 3N		

3 GROUPS

dimensions (wxdxh) 42.9(38.1) x 19.6 x 19.2 inch	weight 207.2 Lb	boiler 4.2 usgal	Hz 50/60
boiler power 6000 W	voltage 220-240 / 380-415 3N		

4 GROUPS

dimensions (wxdxh) 52.3(47.6) x 19.6 x 19.2 inch	weight 246.9 Lb	boiler 5.8 usgal	Hz 50/60
boiler power 6000 W	voltage 220-240 / 380-415 3N		

Standard

Ergonomic steam control

Automatic washing programme

Electric cup warmer

Smart power management

Rapid setting

On demand

Automatic steam wand

Pod and Capsule Adaptor
